

LAUNCHED ON DECEMBER 9

3D body scan aids early detection of health risks.

Highlights:

- **Easy In-App Experience:** Members can take a photo of themselves at home to receive a personalized report in minutes.
- **Comprehensive Health Insights:** The assessment provides critical metrics like lean mass and waist-to-hip ratio, helping members identify areas for improvement.
- **Detailed Analysis:** Members receive detailed data on their health status, how they compare to others of the same age and gender, and resources for improvement.
- **'Future You' Projection:** Members can stay motivated with a projection of their future self at their goal weight based on concrete data.
